

Greg Johnson

Speaker Kit

I found him both captivating and topical. Often I have a hard time relating to the key note speakers or trying to understand why they were chosen. Greg was fantastic and left us with smiles and an inspirational message. - Lexie Rosilius

Greg Johnson

Bio

What kind of person looks for warnings, danger and violence and then dives head first into it? A lunatic? Maniac? Close!

Meet **Greg Johnson, the Tornado Hunter**. After university he built a marketing firm from the ground up, but decided to dedicate himself fulltime to Mother Nature. Ten years and almost a million kilometers later, Greg's seen and shared the ferocious power of storms including the storms that have devastated the US midwest in recent years. So why does he put himself at risk? Greg has a bucket list philosophy:

Our time on earth is limited, so build the best legacy you can while there is still time.

Greg will inspire you to chase your passions and share the lessons he has learned while pursuing his.

Greg is one of North America's top professional storm-chasers and severe weather experts. He is also an accomplished photographer, speaker and workshop leader. Having graduated from Canada's renowned Acadia University, and after founding and building a leading successful communications, marketing and advertising firm from the ground up, Greg decided it was time to devote himself full-time to pursuing his passion for capturing nature's most beautiful and deadly displays of severe weather. With over ten years experience, Johnson enjoys chasing classic prairie thunder and lightning storms, tornados, hurricanes, blizzards, and plans to continue traveling the world year-round to satisfy his appetite for capturing extreme weather.

Notable events

- 2011 Joplin, Missouri EF5 Tornado

Weather Safety
Career Satisfaction
Wisdom from Weird

"I believe that Mr. Johnson's message is distinctive and memorable, and is relevant to teaching workers and young people about the importance of staying aware of ones surroundings and having a good plan in the event of an emergency."

Patrick Hauser
Chair of North American
Occupational Safety
and Health Week

Tech Specs

Powerpoint Presentation

Presentation provided on a USB thumb drive or on laptop

Greg requires the venue to provide a screen and projector. This is a highly visual presentation so the larger the screen the better.

Audio output from the laptop is via mini-jack (headphone)

WOW!! One of the best keynote speakers I have heard in a long time. What a great message, very motivating and entertaining! –

Rebecca Farrell

A wireless headset microphone is preferred. A lapel mic is also acceptable and a handheld will also work if necessary.

Greg requires the venue to provide adequate audio with one channel for voice and one channel of presentation audio.

Greg will require a table and two chairs in an appropriate lobby area from which to sell copies of his books.

"We were so happy that Greg kicked off our conference with his Keynote Presentation. He had a very humorous way of making everyone in attendance relate to his message and interacted well with the audience on and off stage. The fascinating stories and photographs that he used to chronicle his journey were well received. I would highly recommend Greg to anyone searching for a Keynote presenter for their event, they won't be disappointed."

Denny Stubel, IPEIA
